THE PARTY CIRCUIT

INTERNATIONAL GEM TOWER MODEL UNVEILING

September 11, 50 West 47th Street.

Hundreds of brokers, real estate professionals and jewelry aficionados gathered last month for the hotly anticipated unveiling the International Gem Tower's first model office condominium. Designed by Skidmore, Owings and Merrill, the state-of-the-art Extell Development project is being built exclusively for the global diamond, gem and jewelry industry. Located on the 18th floor, the 3,000-square-foot model showcases the building's comprehensive industry offerings, including double-entry doors, intra-locking systems, bulletproof glass, sorting rooms and abundant natural light. The International Gem Tower is currently 70 percent sold and is expected to be fully operational by mid-2013, spokespeople for Extell Development told *The Commercial Observer* last week.
